MiraclePay Edocs Deposit for NAV

MiraclePay Edocs Deposit provides a secure means to store and access payslips, P60s, pension letters, P11Ds and P45s on-line. Documents can quickly be delivered in a totally secure environment.

The benefits are significant and our customers will quickly realise a substantial return on their investment. MiraclePay Edocs Deposit can easily be added to any existing MiraclePay Enterprise solution, providing simple and easy to use integration to the web services where the documents are stored.

Savings

There are considerable time and financial savings to be achieved by securely storing and providing access to payslips and P60s electronically. Organisations can significantly improve business efficiency - no more printing, tearing off perforation strips, stuffing envelopes, transporting and finally posting. As documents are stored on-line, there is no need to maintain a database of email addresses. Also stationery bills become a thing of the past.

Employees without access to email will be able to login to the website and download, print or view their documents.

Customer savings are considerable; a business with 1,000 employees could save nearly £7.5K per year on postage alone based on a monthly payroll run. This figure is just the start of your cost savings and of course the opportunity to run a 'greener' business means organisations can quickly reduce their carbon footprint.

significant cost and time savings to be made

Functionality
- MiraclePay Enterprise will automatically send your chosen documents to the Edocs Deposit for secure storage
- Each employee will be provided with a unique username and password to retrieve their documents
- Documents will be stored online until they are two years old. They will be automatically deleted at this point unless the employee selects to store them for longer
- Employees will be able to choose whether they would like to view their payslips, P60s, pension letters, P11Ds or P45s online, download or print them
- Employees will simply need access to a web browser to view their documents whether they choose to access from work, home or a public location such as the library or Internet cafe
- Employees will have the ability to change their username and password quickly and easily

Benefits
- Significantly reduces time pressures for those processing the payroll
- Huge reduction in paper and stationery usage saving money and helping the business to be 'greener'
- Huge reduction in printing costs
- Printed payslips and specialised sealing machines no longer need to be purchased and maintained
- Any concerns over missing or stolen mail can be alleviated
- Postal delays or strikes are no longer a concern
- Eliminates time consuming manual processes
- Significant time savings to be made, therefore improving the efficiency of your payroll department
- Postage cost savings alone could be significant. Basing figures on 1,000 staff, a monthly payroll posted first class could reduce costs by £7.5K per annum
- Reduces the need to store large amounts of paper
- Reduces your carbon footprint as a result of less printing and transportation
- Greener businesses can have a more positive company image and reputation
- Could recognise a return on investment in just 12 months or quicker, depending on the number of employees.

How it works
Miracle have partnered with Edocs Deposit Limited to provide this offering. Our MiraclePay Enterprise solution simply integrates with the Edocs Deposit web site. Documents produced by MiraclePay Enterprise will be directed to the site and employees can simply access their documents with a unique username and password.
