

MiraclePeople Training Course Management for NAV

Introduction

By developing a qualified and well trained workforce, organisations will quickly become more efficient and productivity increases. Ultimately the success of your business will depend on the success of your employees and their motivation to do a good job. MiraclePeople Training Course Management can help to identify training needs and manage the delivery of the training itself. In addition to this, the solution will help to run the whole process of training course management. This comprehensive training module will meet the requirements of most in-house training departments

Functionality

- Establishment of training 'areas' (i.e. IT, managerial, health & safety etc.)
- Establishment of training 'options' (i.e. Dynamics NAV training, Word training etc.)
- Establishment of training 'forms' (i.e. in-house, external, mentoring, seminars etc.)
- Maintenance of employee training records
- Identifies training needs
- Collects training needs to summarise demand for a particular training area
- Links back to skills/competencies and qualification records (even pay increases)
- Management of a training course library
- Course schedule management and joining instructions
- Cost analysis and statistics
- Recording of an employee's preferred training format
- Unlimited training types
- Training loan management linked to MiraclePay
